

BALAJI PRUDHVI RAJ DEVARAKONDA

📍 Andhra Pradesh, India | 📞 +91-9885423611 | ✉ devarakondabalaji33@gmail.com

PROFESSIONAL SUMMARY

Results-driven QA Automation Engineer with 4+ years of experience in software testing, test automation, and quality assurance across web-based applications. Skilled in Python automation using Playwright, functional testing, regression testing, API testing, and Agile methodologies. Experienced in developing scalable automation frameworks, improving test coverage, and reducing manual testing effort. Strong understanding of SDLC, STLC, and defect tracking tools. Passionate about building reliable and scalable automation solutions.

TECHNICAL SKILLS

- Automation & Programming
- Python
- Playwright
- Pytest

Testing Types

- Functional Testing
- Regression Testing
- Smoke Testing
- Sanity Testing
- API Testing
- Cross Browser Testing
- End-to-End Testing

Tools & Technologies

- Git & GitHub
- VS Code
- Postman

- JIRA
- Browser DevTools

Database & OS

- SQL Basics
- Windows

Methodologies

- Agile Scrum
- SDLC
- STLC

PROFESSIONAL EXPERIENCE

QA Automation Engineer

Acuity Knowledge Partners | Bengaluru, India

Jan 2022 – Present

Responsibilities

- Developed and maintained automation test scripts using Python and Playwright.
- Automated regression and smoke test suites for web applications.
- Created reusable page object model (POM) framework for scalable automation.
- Performed API testing using Postman and validated backend responses.
- Executed cross-browser testing across Chrome and Edge browsers.
- Worked closely with developers, business analysts, and QA teams in Agile environment.
- Identified, logged, and tracked defects using JIRA.
- Reduced manual testing effort by improving automation coverage.
- Participated in sprint planning, daily standups, and retrospectives.

Achievements

- Received MVP Award for outstanding performance and contributions during the year.
- Improved regression execution time significantly through Playwright automation.
- Increased automation coverage for critical business workflows.
- Helped stabilize release quality with consistent automated validation.

PROJECT DETAILS

Web Application Automation Framework

Technologies Used

Python, Playwright, Pytest, GitHub

Description

Developed an end-to-end automation framework for web application testing using Playwright with Python. Implemented reusable utilities, page object model architecture, reporting mechanisms.

Key Contributions

- Built reusable Playwright automation scripts.
- Automated login, checkout, user management, and reporting modules.
- Implemented data-driven testing approach.
- Added screenshot and reporting utilities for failed test cases.

EDUCATION

Bachelor of Technology (B. Tech)

Andhra University | Andhra Pradesh, India

SOFT SKILLS

- Problem Solving
- Communication Skills
- Team Collaboration
- Quick Learning
- Adaptability
- Analytical Thinking
